VIRGINIA COMMUNITY COLLEGE SYSTEM

Management's Discussion and Analysis (Unaudited)

In 1965, the Virginia General Assembly established the Virginia Community College System (VCCS) as an institution of higher education. The System includes the State Board for Community Colleges, a System Office located in Richmond, a Shared Services Center located in Daleville and twenty-three community colleges located on forty campuses throughout the Commonwealth. The VCCS' mission is to provide everyone the opportunity to obtain an education and develop the right skills to enhance lives and strengthen communities.

The following discussion and analysis provide an overview of the financial position and activities of the VCCS for the year ended June 30, 2022. Management has prepared this discussion, which should be read in conjunction with the financial statements and footnotes.

The community college foundations are included in the accompanying financial statements as a discrete component unit in a separate column. The following discussion and analysis do not include the financial condition and activities of the foundations.

Financial Highlights

The significant financial highlights for the VCCS in fiscal year 2022 were:

- Total net position increased by 14.57% as a result of both increases and decreases in several operating and nonoperating revenue and expense categories. The results of operations for fiscal year 2022 reflected an overall increase in net position of \$134.47 million.
- Total operating revenues increased 6.22%. Student tuition and fees, net of scholarship discounts and allowances, represented 61.32% of total operating revenues which is slightly lower than prior years.
- The State Board for Community Colleges, in May 2021, approved holding tuition rates (including the differentials at eight community colleges) steady for fiscal year 2022.
- From fiscal year 2021 to 2022, student full-time equivalent (FTE) enrollment decreased 6.8% from 92,981 to 86,615 FTEs. This decrease resulted in a decline in net tuition and fee collections of approximately \$26.32 million in fiscal year 2022. One FTE represents 30 credit hours of classes taken by a student over an academic year and is calculated on an annual basis by taking the total credit hours taught divided by 30.
- Total state appropriations revenue (non-capital) increased by \$121.1 million to \$554.74 million as a result of \$138.66 million in carryover funds, \$25.10 million in Affordable Access funds, both offset by reversions. State capital appropriations revenue increased by \$7.87 million. This increase is attributed to construction activity at Laurel Ridge Community College and Blue Ridge Community College.
- Total operating expenses increased by 15.10% primarily as a result of continued student scholarships funded by federal Coronavirus Aid, Relief, and Economic Security Act (CARES) monies. Expenses for employee compensation represented 48.37% of the total operating costs, which is slightly lower than prior years.

Financial Statements

The three financial statements presented are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

Statement of Net Position

The Statement of Net Position presents assets, deferred outflows of resources, liabilities, deferred inflows of resources and the net position of the VCCS as of June 30, 2022. Net position is the residual amount equal to assets and deferred outflows of resources less liabilities and deferred inflows of resources. Net position is presented in three categories; Net investment in capital assets, consists of capital assets, net of accumulated depreciation and reduced by outstanding balances of any borrowings that are attributable to the acquisition, construction, or improvement of those assets. Restricted net position consists of restricted assets reduced by liabilities related to those assets. Restricted net position is classified as either nonexpendable or expendable. Nonexpendable balances consist of loan funds and permanent endowments (available for investment purposes only). Expendable balances are available for expenditure by the VCCS but must be used for purposes determined by external entities. Unrestricted net position balances are not subject to externally imposed restrictions and may be internally designated for specific purposes by management of the VCCS.

A summarized Statement of Net Position is as follows:

Current Assets

Current assets consist of \$367.61 million in cash, cash equivalents, and short-term investments, \$31.90 million in accounts, notes, and interest receivable, \$13.31 in state appropriations receivable, \$11.43 million in amounts due from the commonwealth, \$18.20 million in prepaid expenses, and \$1.54 million in inventories. The \$63.60 million increase in current assets was primarily attributable to an increase of \$26.81 million in cash, cash equivalents, and short-term investments.

Current assets cover current liabilities 2.53 times, an indicator of sound liquidity and the ability to weather short-term demands on working capital. Current assets also cover over 4.5 months of total operating expenses, excluding depreciation. Both ratios remained consistent with prior years. For fiscal year 2022, one month of operating expenses (excluding depreciation) equaled \$98.52 million.

Capital Assets, Net of Accumulated Depreciation

The overall increase of \$32.02 million in net capital assets was due the implementation of Statement 87 of the Governmental Accounting Standards Board (GASB 87), which requires governmental agencies to capitalize all accounting leases, which totaled \$41.53 million for the VCCS in FY22. There were other small decreases as a result of normal yearly depreciation. The following tables compares fiscal year 2022 to fiscal year 2021 capital asset balances by category:

Other Non-Current Assets

Cash equivalents held with trustees consists of balances in State Non-Arbitrage Program (SNAP) accounts related to pooled bond capital projects. The balance in appropriation available consists of General and Central Capital Planning funds for capital projects.

Deferred Outflows of Resources

Deferred outflows of resources category reports consumption of resources applicable to a future reporting period. The balances reported for fiscal years 2022 and 2021 include amounts for certain pension and OPEB changes and will be recognized as pension and OPEB expenses in future fiscal years. In addition, the balances for both fiscal years include deferred losses on defeasance of debt related to refinancing of certain pooled bond issuances and will be recognized as expense in future fiscal years.

Current Liabilities

Current liabilities consist of accounts and retainage payable of \$37.97 million, accrued payroll expense of \$55.61 million, unearned revenues of \$35.88 million, long-term obligations (current portion) of \$33.13 million, and deposits totaling \$10.87million.

Current liabilities increased by \$11.87 million in fiscal year 2022 primarily due to the Increase in the current portion of long-term liabilities resulting from the implementation of GASB 87. Unearned revenues decreased by \$11.36 million. This decrease was a result of the uncertainty of enrollment due to the ongoing pandemic. This decrease was offset slightly by an \$8.06 million increase in accounts payable from the purchases of CARES related expenditures.

Non-Current Liabilities

Non-Current liabilities consist of a net pension obligation of \$274.09 million, the OPEB obligation of \$95.87 million, pooled bonds of \$75.12 million, accrued leave of \$11.61 million, and federal loan program amounts due of \$1.87 million. The overall decrease of \$279 million in non-current liabilities was primarily due to the decrease of the VCCS' proportionate share of the Commonwealth's overall VRS pension liability and OPEB liabilities of \$299.33 million.

<u>Deferred Inflows of Resources</u>

The financial statement deferred inflows of resources category is used to report acquisition of resources applicable to a future reporting period. The balance reported for fiscal years 2022 and 2021 include amounts related to pension and OPEB that will impact pension and OPEB expenses in future fiscal years and deferred gains on debt refunding related to refinancing of certain pooled bond issuances. For fiscal year 2022, the balance also includes amounts related to leases associated with the implementation of GASB 87. Leases.

Net Position

The decrease in net investment in capital assets of \$5.19 million is explained by changes in capital assets, net of accumulated depreciation and in capital asset related debt. The increase of \$98.89 million in the unrestricted net position category is the result of several factors. The fluctuation of the VCCS' proportionate share of the Commonwealth's overall OPEB liability and VCCS' proportionate share of the overall VRS pension liability. Both liabilities (short and long-term portions) had a combined decrease of \$299.66 million. This was offset by decreases in other liability categories and a \$134.47 million increase in overall operations. The balance in total net position is a residual amount equal to the sum of total assets and deferred outflows of resources less the sum of total liabilities and deferred inflows of resources and is considered one measure of the current financial condition of an organization.

Statement of Revenues, Expenses and Changes in Net Position

The purpose of the Statement of Revenues, Expenses and Changes in Net Position is to present operating and non-operating revenues received by the institution, operating and non-operating expenses incurred and any other revenues, expenses, gains, and losses. Changes in net position as presented on the

Statement of Net Position are based on the activity presented in the Statement of Revenues, Expenses and Changes in Net Position.

Operating Revenues

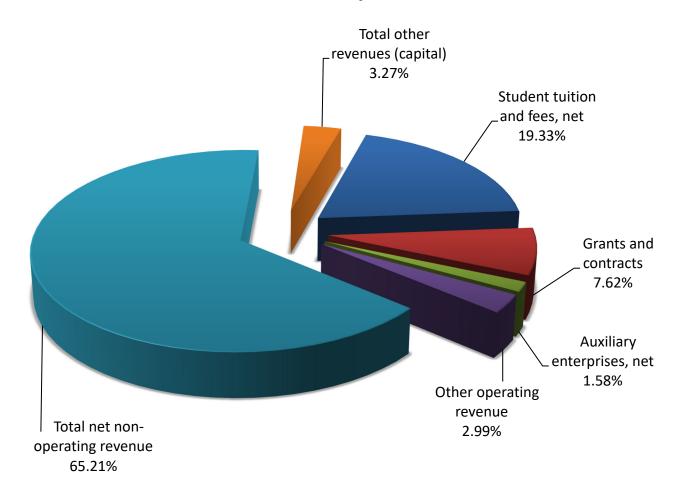

Total operating revenues increased by 6.22% compared to the prior year. Gross student tuition and fee revenues (before scholarship discounts and allowances) increased by \$15.23 million. Net tuition and fees revenue decreased by \$26.32 million or slightly over 8.3%. Tuition and fee rates remained constant from FY21 contributing to this net revenue decline. Other operating revenue sources fluctuated slightly contributing to the overall increase of \$27.60 million in operating revenues.

Non-operating and Other Revenues

Total net non-operating revenue increased by \$244.67 million. Grants and gifts revenue were the largest contributing factor increasing over \$123.75 million largely as a result of the CARES Act funding received.

A graphic presentation of fiscal year 2022 revenues by source (per the Statement of Revenues, Expenses and Changes in Net Position) is below.

Operating Expenses

Operating expenses totaled approximately \$1.36 billion for fiscal year 2022, an increase of \$178.49 million. The natural expense category, compensation and benefits, comprised \$658.19 million of total VCCS operating expenses representing a 5.41% decrease over fiscal year 2021. Scholarship expenses increased \$117.66 million, due to the additional CARES Act funding received for fiscal year 2022. The net change across the other natural expense categories (i.e., utilities and depreciation) remained relatively flat except for supplies, services, and other expenses which increased by \$87.03 million, again as a result of additional CARES Act expenditures.

The primary sources of cash for the VCCS included tuition and fees of \$266.73 million, operating grants and contracts of \$112.91 million, and auxiliary revenues of \$23.82 million. The primary uses of operating cash included employee salaries, wages, fringe benefits and pension benefits of \$731.88 million, operating expenses (payments to suppliers/others and utilities) of \$374.65 million and scholarships of \$256.94 million. Net cash used in operations is significantly greater than the cash received from operations on this statement due to the required presentation of state appropriation and grants/gifts as cash flows from non-capital financing activities. Net cash flows provided by non-capital financing activities increased \$244.33 million due to an increase of \$121.09 million state appropriations and the influx of CARES Act funds. Net cash flows from capital and related financing activities decreased \$21.61 million due to a decrease of \$6.67 million in state and local capital appropriations, an increase of \$7.65 million for capital asset purchases, and an increase of \$7.31 million in debt principal payments. Net cash provided by (used in) investing activities decreased \$21.80 million as investment purchases were \$7.19 million higher in fiscal year 2022 and sale of investments were \$14.39 million lower in fiscal year 2022. The overall increase in cash and cash equivalents was \$21.35 million at the end of fiscal year 2022.

Economic Outlook

For fiscal year 2022, the Commonwealth recorded a 16.3% increase in general fund revenues above fiscal year 2021 (and almost 36% above pre-pandemic fiscal year 2019). The growth in Virginia revenues were driven by withholding, non-withholding, and corporate income taxes in the last three years.

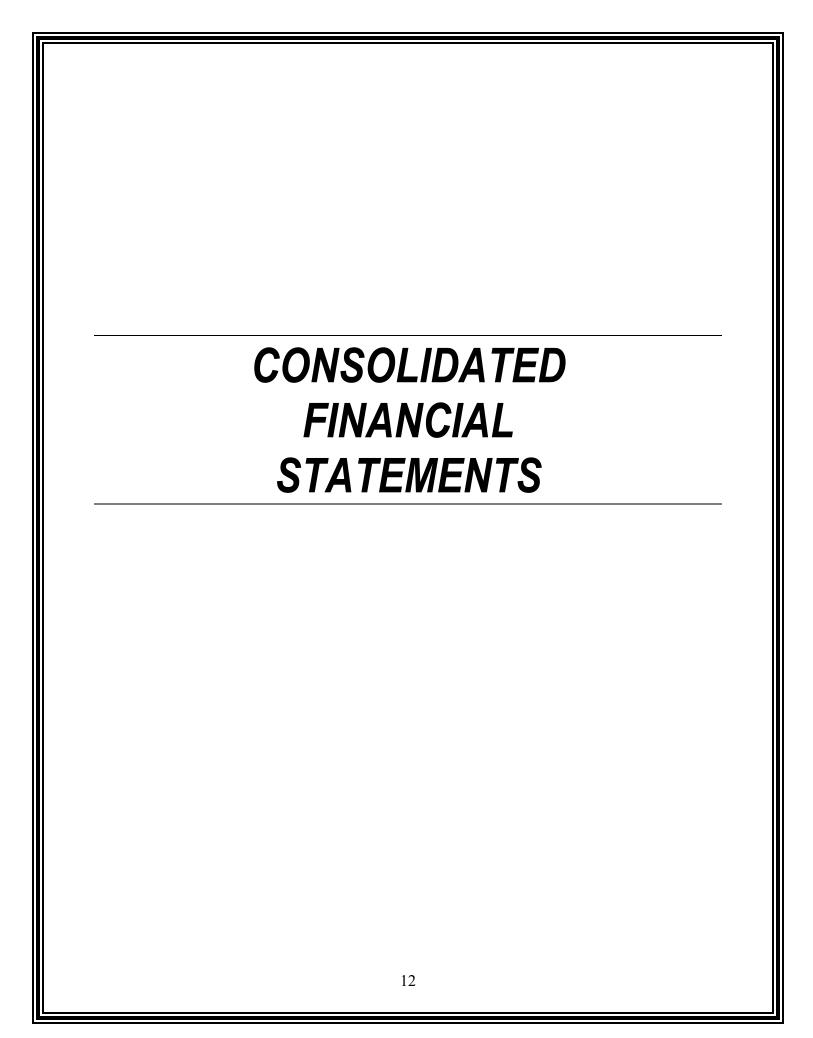

The State Board for Community Colleges has noted its intention to keep VCCS tuition and mandatory fees at less than half the rates of public four-year institutions in Virginia. The VCCS' rate in fiscal year 2023 will be 31.9% of the average of the four-year institutions for total tuition and mandatory fees.

Effective with the fall 2019 session (and continuing into fiscal year 2023), the State Board for Community Colleges elected to not change tuition rates for all students. Within the VCCS, eight colleges have (unchanged) tuition differential rates ranging from \$1.00 per credit hour to \$29.05 per credit hour.

Chapter 2, 2022 Special Session I of the Virginia Acts of Assembly, authorized the funding for the construction and other capital costs to Reconstruct Templin Hall Auditorium on the Hampton Campus of Thomas Nelson Community College.

The VCCS capitalized construction expenses totaling \$31.1 million during fiscal year 2022. These costs primarily included projects that were still in construction as of June 30, 2022 but also included a few projects that were complete as of June 30, 2022. Construction costs for projects completed during fiscal year 2022 totaled \$31.5 million.

The VCCS entered into contractual commitments for capital projects totaling \$158.1 million prior to June 30, 2022. Expenses processed against these commitments during fiscal year 2022 totaled \$99.2 million, leaving an unpaid commitment balance of \$58.9 million as of June 30, 2022.

VIRGINIA COMMUNITY COLLEGE SYSTEM

NOTES TO FINANCIAL STATEMENTS

As of June 30, 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Virginia Community College System (VCCS) was established as an institution of higher education in 1965. The System includes the State Board for Community Colleges, a System Office located in Richmond, a Shared Service Center and twenty-three community colleges located on forty campuses throughout the Commonwealth.

The Shared Service Center (SSC) was established to process administrative transactions. Located in Daleville, Virginia, the SSC supports the VCCS mission by providing customer service and administrative services to the 23 community colleges and System Office. These services include administrative functions in the areas of human resources, fiscal services, payroll, and procurement. The costs associated with the SSC are allocated to the 23 community colleges and System Office.

The State Board for Community Colleges is the governing body and is charged with the responsibility to establish, control, and administer a statewide system of publicly supported comprehensive community colleges. The System therefore functions as a statewide institution of higher learning.

The accompanying financial statements include all of the individual community colleges and the System Office under the control of the State Board for Community Colleges.

The System is a discrete component unit of the Commonwealth of Virginia and is included in the general-purpose financial statements of the Commonwealth. A separate report is prepared for the Commonwealth of Virginia that includes all agencies, boards, commissions, and authorities over which the Commonwealth exercises or has the ability to exercise oversight authority.

B. Community College Foundations

The community college foundations are legally separate, tax-exempt organizations formed to promote the achievements and further the aims and purposes of the colleges. The foundations accomplish their purposes through fundraising and funds management efforts that benefit the colleges and their programs. Although the colleges do not control the timing or amount of receipts from the foundations, the majority of resources or income thereon that the foundations hold and invest is restricted to the activities of the colleges by the donors. Because these restricted resources held by the foundations can only be used by, or for the benefit of the colleges, the foundations are considered discrete component units.

During the year ended June 30, 2022, the foundations distributed \$18,053,647 to the colleges for both restricted and unrestricted purposes. Complete financial statements for the foundations can be obtained by writing the VCCS Office of Fiscal Services, 300 Arboretum Place, Suite 200, Richmond, VA 23236.

C. <u>Financial Statement Descriptions</u>

The three financial statements presented are the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

The Statement of Net Position presents the assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the VCCS at the end of the fiscal year and also provides the amount of net position and the availability for expenditure. The Statement of Revenues, Expenses, and Changes in Net Position presents operating and non-operating revenues received by the institution, operating and non-operating expenses incurred and any other revenues, expenses, gains and losses. The Statement of Cash Flows provides additional information about the financial results of the VCCS by reporting the major sources and uses of cash.

D. Basis of Accounting

For financial reporting purposes, the VCCS is considered a special purpose government engaged in only business-type activities. Business-type activities are those that are financed in whole or in part by fees charged to external parties for goods and services. Accordingly, the financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. All material internal transactions have been eliminated.

Revenues and expenses of the summer academic term occur within two fiscal years, because the term extends from May through August and the fiscal year ends on June 30. Expenses and an equal amount of revenue have been reported in the current period for the portion of the summer academic term from May 16 through June 30, 2022.

The community college foundations are private, nonprofit organizations that report under FASB standards. As such, certain revenue recognition criteria and presentation features are different from GASB. Where necessary, reclassifications have been made to convert FASB presentation to GASB presentation requirements.

The financial statements for the community college foundations are for the year ending June 30, 2022 except for Dabney S. Lancaster (Educational and Real Estate Foundations), Eastern Shore, Germanna, Lord Fairfax, Mountain Empire, New River, Piedmont, Tidewater (Educational and Real Estate Foundations), Virginia Western, and Wytheville (Educational and Scholarship Foundations) which are as of December 31, 2021.

E. Lease Receivable

The System determines if an arrangement contains a capital lease at the inception of a contract and the lease classification is determined at the commencement date. Short-term leases with an initial term of 12 months or less, including all renewal options, are not recorded on the Statement of Net Position and are recognized as inflows of resources in the period to which the payments relate. Long-term leases are capitalized and the lease term includes renewal options that are reasonably certain of being exercised. The System's lease receivable is measured at the present value of lease payments expected to be received during the lease term. Under some lease agreements, the System may receive variable payments based on future performance by the lessee. These variable payments are not included in the measurement of the lease receivable and are recognized as inflows of resources in the period to which those payments relate. Any component of the variable payments that are fixed in substance is included in the measurement of the lease receivable. The System uses its incremental borrowing rate to discount the lease payments. The incremental borrowing rate is based on the Department of Accounts estimated rate of interest for borrowing over a similar term as the lease term.

A deferred inflow of resources is recorded at the commencement of a lease in an amount equal to the initial recording of the lease receivable. The deferred inflow of resources is amortized on a straight-line basis over the term of the lease.

F. Prepaid Assets

Prepaid assets for rent, insurance, and similar items are recognized when purchased and expensed when used.

G. Inventories

Inventories are stated at cost (primarily first-in, first-out method) and consist mainly of goods purchased for resale and expendable supplies.

H. <u>Cash Equivalents and Investments</u>

Cash equivalents maintained by the VCCS are investments with original maturities of less than three months. Investments in money market accounts and in Commonwealth sponsored investment pools are reported at amortized cost. All other investments are reported at fair market value, in accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, as amended by GASB Statement 72, Fair Value Measurement and Application. GASB Statement 72 provides guidance for determining fair value measurements using the level of fair value hierarchy and valuation techniques.

I. Capital Assets

Plant assets consisting of land, buildings, infrastructure, equipment, library books, intangible assets, and construction in progress are stated at appraised historical cost or actual cost where determinable. Intangible assets include computer software and right-to-use lease assets. Improvements to buildings, infrastructure and land that significantly increase the usefulness, efficiency or life of the asset are capitalized. Routine maintenance and repairs are charged to operations when incurred. Interest expense relating to construction is capitalized. Donated assets are recorded at acquisition value at the date of donation. The capital asset values presented in these financial statements are extracted from the financial data maintained by the System's Administrative Information System (AIS). Expenses for equipment are capitalized when the unit acquisition cost is \$5,000 or greater and the estimated useful life is one year or more. Occupancy permits are used to determine when to reclassify buildings from construction-in-progress.

Right-to-use lease assets represent the System's right to use an underlying asset for a lease term, and are initially measured as the sum of the following:

- Amount of the initial measurement of the related lease liability
- Lease payments made prior to the commencement of the lease term, less any lease incentives
- Initial direct costs that are ancillary charges necessary to place the lease asset into service

Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 to 25 years for infrastructure and land improvements, 3 to 25 years for equipment, 10 years for library books, and 5 to 10 years for intangible assets - computer software. Right-to use lease assets are amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying asset.

Amortization is not allocated to the functional expense categories. Amortization expense is combined with depreciation expense in the Statement of Revenues, Expenses, and Changes in Net Position.

J. Unearned Revenues

Unearned revenue represents revenues collected but not earned as of June 30. This consists primarily of revenue for student tuition and certain auxiliary activities accrued in advance of the semester, and advance payments on grants and contracts.

K. Accrued Compensated Absences

The amount of leave earned but not taken by all classified employees, administrative/professional faculty, teaching faculty, and presidents is recorded as a liability on the balance sheet. The amount reflects, as of June 30, all unused annual leave, compensatory leave, and the amount payable upon termination under the Commonwealth of Virginia's sick leave pay out policy. Also included in the liability is the System's share of the FICA taxes on leave balances for which employees will be compensated.

L. <u>Lease Liability</u>

The System determines if an arrangement contains a capital lease at the inception of a contract. The lease classification is determined at the commencement date, the date the System has the right to control the property. The lease term includes renewal options that are reasonably certain of being exercised. Short-term leases with an initial term of 12 months or less, including all renewal options, are not recorded on the Statement of Net Position and are recognized as outflows of resources in the period to which the payments relate. Lease liabilities are measured at the present value of payments expected to be made during the lease term. Measurement of the lease liability includes the following if required by a lease:

- Fixed payments
- Variable payments that are fixed in substance
- Amounts that are reasonably certain of being required to be paid under residual value guarantees
- The exercise price of a purchase option if it is reasonable certain that the System will
 exercise that option
- Payments for penalties for terminating the lease
- Any lease incentives
- Any other payments that are reasonably certain of being required based on an assessment of all relevant factors

Variable payments are not included in the measurement of the lease liability and are recognized as outflows of resources in the period to which those payments relate. Any component of the variable payments that are fixed in substance is included in the measurement of the lease liability.

For real estate leases, the present value of payments expected to be made during the lease term is calculated using the discount rate implicit in the lease agreement and if unavailable, the System will obtain the lessor's internal borrowing rate and if unavailable, then the System will use the Department of Accounts incremental rate. For equipment leases, the present value of payments expected to be made during the lease term is calculated using the discount rate implicit in the lease agreement and if unavailable, The System will use Department of Accounts incremental rate at the beginning of the lease term.

M. Deposits

Deposits represent funds held by the VCCS on behalf of others as a result of custodial relationships with various groups and organizations. Custodial funds are expected to be expended within 3 months.

N. Pensions

The Virginia Retirement System (VRS) State Employee Retirement Plan and the Virginia Law Officers' System (VaLORS) Retirement Plan are single employer pension plans that are treated like cost-sharing plans. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the VRS State Employee Retirement Plan and the VaLORS Retirement Plan; and the additions to/deductions from the VRS State Employee Retirement Plan's and the VaLORS Retirement Plan's net fiduciary position have been determined on the same basis as they were reported by VRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments held by VRS are reported at fair value.

O. Post-Employment Benefits

Plans administered by the VRS

State Employee Health Insurance Credit Program

The Virginia Retirement System (VRS) State Employee Health Insurance Credit Program is a single employer plan that is presented as a multiple-employer, cost-sharing plan. The State Employee Health Insurance Credit Program was established pursuant to §51.1-1400 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The State Employee Health Insurance Credit Program is a defined benefit plan that provides a credit toward the cost of health insurance coverage for retired state employees.

Group Life Insurance Program

The Virginia Retirement System (VRS) Group Life Insurance Program is a multiple employer, cost-sharing plan. It provides coverage to state employees, teachers, and employees of participating political subdivisions. The Group Life Insurance Program was established pursuant to §51.1-500 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The Group Life Insurance Program is a defined benefit plan that provides a basic group life insurance benefit for employees of participating employers.

Line of Duty Act Program

The Virginia Retirement System (VRS) Line of Duty Act Program (LODA) is a multiple-employer, cost-sharing plan. The Line of Duty Act Program was established pursuant to §9.1-400 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The Line of Duty Act Program provides death and health insurance benefits to eligible state employees and local government employees, including volunteers, who die or become disabled as a result of the performance of their duties as a public safety officer. In addition, health insurance benefits are provided to eligible survivors and family members.

Virginia Sickness and Disability Program

The Virginia Retirement System (VRS) Disability Insurance Program (Virginia Sickness and Disability Program) is a single employer plan that is presented as a multiple-employer, cost-

sharing plan. The Disability Insurance Program was established pursuant to §51.1-1100 et seq. of the *Code of Virginia*, as amended, and which provides the authority under which benefit terms are established or may be amended. The Disability Insurance Program is a managed care program that provides sick, family and personal leave and short-term and long-term disability benefits for State Police Officers, state employees, and VaLORS employees.

For purposes of measuring the net OPEB liability (asset), deferred outflows of resources and deferred inflows of resources related to OPEB plans, and OPEB expense, information about the fiduciary net position of the Virginia Retirement System's (VRS) administered OPEB Plans and the additions to/deductions from the OPEB Plan's net fiduciary position have been determined on the same basis as they were reported by VRS. In addition, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments held by VRS are reported at fair value.

Plan administered by the Department of Human Resource Management

Pre-Medicare Retiree Healthcare Plan

Pre-Medicare Retiree Healthcare is a single-employer defined benefit OPEB plan that is treated like a cost-sharing plan for financial reporting purposes. This program was established by Title 2.2, Chapter 28 of the *Code of Virginia* for retirees who are not yet eligible to participate in Medicare. It is the same health insurance program offered to active employees and managed by the Virginia Department of Human Resource Management. After retirement, VCCS no longer subsidizes the retiree's premium; however, since both active employees and retirees are included in the same pool for purposes of determining health insurance rates, retiree rates are effectively lower than what might otherwise be available outside of this benefit.

P. Classification of Revenues and Expenses

The VCCS has classified its revenues as either operating or nonoperating revenues according to the following criteria:

Operating revenues include activities that have the characteristics of exchange transactions, such as tuition and fees, sales and services of auxiliary enterprises, most federal, state and local grants and contracts, and interest on student loans.

Nonoperating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, state appropriations and investment income.

Nonoperating expenses include interest on debt related to the purchase of capital assets and losses on disposal of capital equipment. All other expenses are classified as operating expenses.

Q. Scholarship Discounts and Allowances

Student tuition and fees revenues, and certain other revenues from students, are reported net of scholarship discounts and allowances in the Statement of Revenues, Expenses, and Changes in Net Position. Scholarship discounts and allowances are the difference between the stated charge for goods and services provided by the VCCS, and the amount that is paid by students and/or third parties making payments on the student's behalf. Certain governmental grants and other federal, state or nongovernmental programs are recorded as either operating or nonoperating revenues in the financial statements. To the extent that such revenues are used to satisfy tuition and fees and other student charges, the VCCS has recorded a scholarship discount and allowance.

R. Deferred Inflows and Outflows of Resources

Deferred outflows of resources are defined as the consumption of net assets applicable to a future reporting period. The deferred outflows of resources have a positive effect on net position similar to assets.

Deferred inflows of resources are defined as the acquisition of net assets applicable to a future reporting period. The deferred inflows of resources have a negative effect on net position similar to liabilities.

S. Net Position

Net position balances are classified as follows:

<u>Net investment in capital assets</u>: Consists of capital assets, net of accumulated depreciation reduced by outstanding debt attributable to the acquisition, construction or improvement of those assets.

<u>Restricted-nonexpendable</u>: Restricted nonexpendable balances consist of endowment funds in which donors have stipulated, as a condition of the gifts that the principal is to remain inviolate in perpetuity.

Restricted-expendable: Restricted expendable balances include resources in which the VCCS is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties.

<u>Unrestricted</u>: Unrestricted balances represent resources that may be used at the discretion of the governing board for any lawful purpose.

When an expense is incurred that can be paid from either restricted or unrestricted resources, it is the policy of the VCCS to first apply the expense towards restricted resources and then towards unrestricted resources.

U. <u>New Accounting Pronouncements</u>

In June 2017, GASB issued Statement No. 87, Leases. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. The Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions

of the contract. For the System, the requirements of this Statement are effective as of the fiscal year beginning July 1, 2021.

The System adopted this new accounting standard on July 1, 2021 on a retrospective basis and applied the new standard to all leases existing as of July 1, 2021. This resulted in the recognition of Lease Liabilities of \$42,024,903, Right-of-Use Lease Assets net of accumulated amortization of \$41,527,771, Lease Receivables of \$807,425, and Deferred Inflows of Resources of \$807,425 on the Statement of Net Position as of June 30, 2022.

GASB issued Statement No. 96, Subscription-based Information Technology Arrangements (SBITAs). GASB 96 establishes uniform accounting and financial reporting requirements for SBITAs; improves the comparability of government's financial statements; and enhances the understandability, reliability, relevance, and consistency of information about SBITAs. GASB 96 is effective for Fiscal Years beginning after June 15, 2022. This statement will impact the Fiscal Year 2023 VCCS Financial Statements.

2. CASH AND INVESTMENTS

Cash and Cash Equivalents

Cash equivalents maintained by the VCCS are investments with original maturities of less than three months.

Pursuant to Section 2.2-1800, et seq., *Code of Virginia*, all state funds of the VCCS are maintained by the Treasurer of Virginia who is responsible for the collection, disbursement, custody, and investment of state funds.

Deposits

Local cash deposits with banks and savings institutions not with the Treasurer of Virginia are covered by federal depository insurance or collateralized in accordance with the Virginia Security of Public Deposits Act, Section 2.2-4400 et seq., *Code of Virginia*. Deposits covered by the Virginia Security of Public Deposits Act totaled \$54,534,875 at June 30, 2022.

Investments

Certain deposits and investments are held by the VCCS. Such investments are reported separately from cash and cash equivalents. Investments represent securities with original maturities of more than three months and for which management intends to hold the securities to maturity.

Investments in money market accounts, non-negotiable certificates of deposit, the Virginia State Non-Arbitrage Program (SNAP) and the Local Government Investment Pool (LGIP) are reported at amortized cost. SNAP offers a professionally-managed money market mutual fund, which provides a temporary pooled investment vehicle for proceeds pending expenditure, and with record keeping, depository and arbitrage rebate calculations. This program complies with all standards of GASB Statement 79. SNAP investments are reported using the net asset value (NAV) per share, which is calculated on an amortized cost basis that provides an NAV that approximates fair value. All other investments are reported at fair market value, in accordance with GASB Statement 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, as amended by GASB Statement 72, Fair Value Measurement and Application. GASB Statement 72 provides guidance for determining fair value measurements using the level of fair value hierarchy and valuation techniques.

Investments of the member colleges of the VCCS are limited to those allowed under Chapter 45, Investments of Public Funds Act, Sections 2.2-4500, 2.2-4501, 2.2-4509 and 2.2-4510 of the Code of

Virginia. Commonwealth of Virginia law limits investments in stocks, bonds, notes, and other evidences of indebtedness of the Commonwealth and those unconditionally guaranteed as to the payment of principal and interest by the Commonwealth. Investments in United States agencies all carry the explicit guarantee of the United States government. Additionally, Virginia's community colleges may participate in the Local Government Investment Pool as authorized by Chapter 46 of the Code of Virginia and managed by the Commonwealth of Virginia Treasury Board. Authorized investments in the Local Government Investment Pool are limited to those set forth for local officials in Chapter 45, Sections 2.2-4500 of the Code of Virginia. The LGIP is managed in accordance with the requirements of GASB Statement 79 and investments are reported at amortized cost.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. VCCS has no investments exposed to custodial credit risk for 2022.

Interest Rate Risk

Disclosure of the maturities of investments is required when the fair market value is adversely affected by changes in interest rates. Investments subject to interest rate risk are outlined in the accompanying chart.

Credit Risk

Disclosure of the credit quality rating is required for investments exposed to the risk that an issuer or other counterparty will not fulfill its obligations. Investments subject to credit rate risk are outlined in the accompanying chart.

Concentration of Credit Risk

Disclosure of any one issuer is required when it represents 5 percent or more of total investments. VCCS does not have such concentration of credit risk for 2022.

Foreign Currency Risk

Disclosure is required for investments exposed to changes in exchange rates that will adversely affect the fair value of an investment or a deposit. VCCS has no investments or deposits subject to Foreign Currency Risk for 2022.

Fair Value Measurement

The following disclosures are made in accordance with GASB Statement 72 Fair Value Measurement and Application. This standard sets forth the framework for measuring fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of fair value hierarchy under GASB 72 are described as follows:

<u>Level 1</u> inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.

<u>Level 2</u> inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for an asset or liability.

| Fair Value Measurement Using: | Quoted Prices In Active Markets for Identical Assets Level 1 | Other Observable | Significant Other Unobservable Inputs Level 3 |

Some VCCS foundations had balances in bank and savings institutions that exceeded federally-insured limits. However, the foundations do not believe this poses any significant credit risk.

3. RECEIVABLES AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

The following receivables included an allowance for doubtful accounts at June 30, 2022:

| Gross accounts receivable: | |
|---|---------------|
| Tuition and fees | \$ 27,442,659 |
| Auxiliary enterprises | 512,405 |

| Less: Allowance for doubtful accounts | (90,999) |
| Net loans and notes receivable | \$ 1,340,452 |

^{*}The System leases out cell tower space, Initial terms are typically 5 to 10 years and may contain rent escalation clauses, revenue share, and renewal options ranging from 1 to 10-year intervals. Discount rates on all current leases are 3.25%.

The lease and interest receivables for fiscal years subsequent to June 30, 2022, are as follows:

| Year | Lea | se Receivable | Inter | est Receivable | Total |
|-----------|-----|---------------|-------|----------------|---------------|
| 2023 | \$ | 140,867 | \$ | 26,241 | \$ 167,108 |

14. EQUIPMENT TRUST FUND

The System participates in the Higher Education Equipment Trust Fund (HEETF) of the Virginia College Building Authority (VCBA). The HEETF provides funds to public colleges and universities for equipment acquisitions using proceeds from revenue bonds issued for this purpose.

15. DONOR-RESTRICTED ENDOWMENTS

VCCS has two donor-restricted endowments. The net appreciation on investments of donor-restricted endowments that is available for expenditure by the governing board did not change for the year ended June 30, 2022. These amounts are reported as restricted expendable net position. Total-return policy is followed for authorizing and spending investment income.

16. CONTINGENCIES ON GRANTS

The VCCS receives assistance from non-state grantor agencies in the form of grants. Entitlement to these resources is generally conditional upon compliance with the terms and conditions of grant agreements. Substantially all grants are subject to financial and compliance audits by the grantors. All disallowances as a result of these audits become a liability of the VCCS. As of June 30, 2022, the VCCS estimates that no material liabilities will result from such audits.

Virginia Retirement System - General Information about the Pension Plans

Plan Description

All full-time, salaried permanent employees of state agencies are automatically covered by the VRS State Employee Retirement Plan or the VaLORS Retirement Plan upon employment. This

plan is/These plans are administered by the Virginia Retirement System (the System) along with plans for other employer groups in the Commonwealth of Virginia. Members earn one month of service credit for each month they are employed and for which they and their employer pay contributions to VRS. Members are eligible to purchase prior service, based on specific criteria as defined in the *Code of Virginia*, as amended. Eligible prior service that may be purchased includes prior public service, active military service, certain periods of leave, and previously refunded service.

The System administers three different benefit structures for covered employees in the VRS State Employee Retirement Plan – Plan 1, Plan 2, and Hybrid; and two different benefit structures for covered employees in the VaLORS Retirement Plan – Plan 1 and Plan 2. Each of these benefit structures has different eligibility criteria. The specific information for each plan and the eligibility for covered groups within each plan are set out in the table below:

Cost-of-Living Adjustment (COLA) in Retirement

The Cost-of-Living Adjustment (COLA) matches the first 3% increase in the Consumer Price Index for all Urban Consumers (CPI-U) and half of any additional increase (up to 4%) up to a maximum COLA of 5%.

Eligibility:

For members who retire with an unreduced benefit or with a reduced benefit with at least 20 years of service credit, the COLA will go into effect on July 1 after one full calendar year from the retirement date.

For members who retire with a reduced benefit and who have less than 20 years of service credit, the COLA will go into effect on July 1 after one calendar year following the unreduced retirement eligibility date.

Exceptions to COLA Effective Dates:

The COLA is effective July 1 following one full calendar year (January 1 to December 31) under any of the following circumstances:

- The member is within five years of qualifying for an unreduced retirement benefit as of January 1, 2013
- The member retires on disability.
- The member retires directly from short-term or long-term disability.
- The member Is involuntarily separated from employment for causes other than job performance or misconduct and is eligible to retire under the Workforce Transition Act or the Transitional Benefits Program.
- The member dies in service and the member's survivor or beneficiary is eligible for a monthly death-inservice benefit.

The COLA will go into effect on July 1 following one full calendar year (January 1 to December 31) from the date the monthly benefit begins.

Contributions

The contribution requirement for active employees is governed by § 51.1-145 of the Code of Virginia, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Employees are required to contribute 5.00% of their compensation toward their retirement. Each state agency's contractually required employer contribution rate for the fiscal year ended June 30, 2022, was 14.46% of covered employee compensation for employees in the VRS State Employee Retirement Plan. For employees in the VaLORS Retirement Plan, the contribution rate was 21.90% of covered employee compensation. This rate was/These rates were based on an actuarially determined rate(s) from an actuarial valuation as of June 30, 2019. The actuarially determined rates, when combined with employee contributions, was/were expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the state agency to the VRS State Employee Retirement Plan were \$45.9 million and \$42.8 million for the years ended June 30, 2022, and June 30, 2021, respectively. Contributions from the VCCS to the VaLORS Retirement Plan were \$1.1 million and \$1.2 million for the years ended June 30, 2021, respectively.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2022, the VCCS reported a liability of \$266.5 million for its proportionate share of the VRS State Employee Retirement Plan Net Pension Liability and a liability of \$7.6 million for its proportionate share of the VaLORS Retirement Plan Net Pension Liability. The Net Pension Liability was measured as of June 30, 2021, and the total pension liability used to calculate the Net Pension Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The VCCS's proportion of the Net Pension Liability was based on the VCCS's actuarially determined employer contributions to the pension plans for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the VCCS' proportion of the VRS State Employee Retirement Plan was 7.34% as compared to 7.43% at June 30, 2020. At June 30, 2021, the VCCS' proportion of the VaLORS Retirement Plan was 1.45% as compared to 1.49% at June 30, 2020.

For the year ended June 30, 2022, the VCCS recognized pension expense of (\$3.2) million for the VRS State Employee Retirement Plan and \$744 thousand for the VaLORS Retirement Plan. Since there was a change in proportionate share between June 30, 2020, and June 30, 2021, a portion of the pension expense was related to deferred amounts from changes in proportion and differences between employer contributions and the proportionate share of employer contributions.

At June 30, 2022, the VCCS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| VRS State Employer Retirement Plan (\$ Thousands) | Deferred Outflows of Resources | | | Deferred Inflows of Resources | | |

\$45.9 million reported as deferred outflows of resources related to pensions resulting from the VCCS's contributions subsequent to the measurement date will be recognized as a reduction of the Net Pension Liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in future reporting periods as follows:

Net Pension Liability

The net pension liability (NPL) is calculated separately for each plan and represents that particular plan's total pension liability determined in accordance with GASB Statement No. 67, less that plan's fiduciary net position. As of June 30, 2021, NPL amounts for the VRS State Employee Retirement Plan and the VaLORS Retirement Plan are as follows (amounts expressed in thousands):

| | State Employee Retirement <u>Plan</u> | VaLORS Retirement <u>Plan</u> |
|--|---|-------------------------------------|
| Total Pension Liability Plan Fiduciary Net Position Employers' Net Pension Liability (Asset) | \$ 26,739,647 <u>23,112,417</u> <u>\$ 3,627,230</u> | \$ 2,390,609 |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | 86.44% | 78.18% |

The total pension liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net pension liability is disclosed in accordance with the requirements of GASB Statement No. 67 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of

return (expected returns, net of pension System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| Asset Class (Strategy) | Target Allocation | Arithmetic Long-Term Expected Rate of Return | Weighted Average Long-Term Expected Rate of Return |
|--------------------------------------|----------------------|--|--|
| Public Equity | 34.00% | 5.00% | 1.70% |
| Fixed Income | 15.00% | 0.57% | 0.09% |
| Credit Strategies | 14.00% | 4.49% | 0.63% |
| Real Assets | 14.00% | 4.76% | 0.67% |
| Private Equity | 14.00% | 9.94% | 1.39% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.29% | 0.20% |
| PIP - Private Investment Partnership | 3.00% | 6.84% | 0.21% |
| Total | 100.00% | | 4.89% |
| | Inflation | | 2.50% |
| * Expected arith | metic nominal return | | 7.39% |

^{*} The above allocation provides a one-year expected return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the System, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that System member contributions will be made per the VRS Statutes and the employer contributions will be made in accordance with the VRS funding policy at rates equal to the difference between actuarially determined contribution rates adopted by the VRS Board of Trustees and the member rate. Through the fiscal year ending June 30, 2021, the rate contributed by the VCCS for the VRS State Employee Retirement Plan and the VaLORS Retirement Plan will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly, which was 100% of the actuarially determined contribution rate. From July 1, 2021, on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

^{*} On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Pension Plan Fiduciary Net Position

Detailed information about the VRS State Employee Retirement Plan's Fiduciary Net Position or the VaLORS Retirement Plan's Fiduciary Net Position is available in the separately issued VRS 2021 Annual Report. A copy of the 2021 VRS Annual Report may be downloaded from the VRS website at varetire.org/pdf/publications/2021-annual-report.pdf, or by writing to the System's Chief Financial Officer at P.O. Box 2500, Richmond, VA 23218-2500.

Payables to the Pension Plan

The VCCS recognized \$55.6 million as Accrued Payroll Expenses as of June 30, 2022, which represents hours worked before June 30 but paid after July 1. The portion payable to the VRS for pension contributions is estimated at \$1.5 million.

Optional Retirement Plans

All qualified salaried employees of the VCCS are required to participate in a retirement benefit plan administered by the Virginia Retirement System (VRS) or in an Optional Retirement Plan (ORP). Classified employees are eligible to participate in the VRS only, while faculty rank employees are eligible to participate in either the VRS or the ORP.

Faculty rank employees can participate in a defined contribution plan administered by two providers other than the VRS. These optional retirement plans are defined contribution plans offered through TIAA and DCP. This is a defined contribution plan where the retirement benefits received are based on the employer's (10.4%) contributions, plus interest and dividends for those employees who became a member prior to July 1, 2010. For those employees who became a member on or after July 1, 2010, the employer's contributions are 8.5% and the employee's contributions are 5.0%.

Individual contracts issued under the ORP plan provide for full and immediate vesting of the VCCS contributions. Total pension costs under this plan were \$5.6 million and \$5.6 million for years ended June 30, 2022, and 2021, respectively. Contributions to the ORP plan were calculated using the base salary amount of \$58 million and \$57.6 million for fiscal years 2022 and 2021. The VCCS total payroll for fiscal years 2022 and 2021 was \$539.1 million and \$516.2 million respectively.

Payables to the Optional Retirement Plan

The VCCS recognized \$55.6 million as Accrued Payroll Expenses as of June 30, 2022, which represents hours worked before June 30 but paid after July 1 or after. The portion payable for contributions to the optional retirement plans is estimated at \$524 thousand.

Deferred Compensation Plan

Employees of the VCCS are employees of the Commonwealth of Virginia. State employees may participate in the Commonwealth's Deferred Compensation Plan. Participating employees can contribute to the plan each pay period with the Commonwealth matching up to \$20 per pay period. The dollar amount match can change depending on the funding available in the Commonwealth's budget. The Deferred Compensation Plan is a qualified defined contribution plan under Section 401(a) of the Internal Revenue Code. Employer contributions under the Deferred Compensation Plan were approximately \$1.5 million for fiscal year 2022.

18. POST-EMPLOYMENT BENEFITS

Plans administered by VRS

General Information about the State Employee Health Insurance Credit Program Plan Description

All full-time, salaried permanent employees of state agencies are automatically covered by the VRS State Employee Health Insurance Credit Program. This plan is administered by the Virginia Retirement System (the System), along with pension and other OPEB plans, for public employer groups in the Commonwealth of Virginia. Members earn one month of service credit toward the benefit for each month they are employed and for which their employer pays contributions to VRS. The health insurance credit is a tax-free reimbursement in an amount set by the General Assembly for each year of service credit against qualified health insurance premiums retirees pay for single coverage, excluding any portion covering the spouse or dependents. The credit cannot exceed the amount of the premiums and ends upon the retiree's death.

General Information about the Group Life Insurance Program Plan Description

All full-time, salaried permanent employees of the state agencies, teachers and employees of participating political subdivisions are automatically covered by the VRS Group Life Insurance Program upon employment. This plan is administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

In addition to the Basic Group Life Insurance benefit, members are also eligible to elect additional coverage for themselves as well as a spouse or dependent children through the Optional Group Life Insurance Program. For members who elect the optional group life insurance coverage, the insurer bills employers directly for the premiums. Employers deduct these premiums from members' paychecks and pay the premiums to the insurer. Since this is a separate and fully insured program, it is not included as part of the Group Life Insurance Program OPEB.

General Information about the Line of Duty Act Program Plan Description

All paid employees and volunteers in hazardous duty positions in Virginia localities and hazardous duty employees who are covered under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers' Retirement System (VaLORS) are automatically covered by the Line of Duty Act Program (LODA). As required by statute, the Virginia Retirement System (the System) is responsible for managing the assets of the program. Participating employers made contributions to the program beginning in FY 2012. The employer contributions are determined by the System's actuary using anticipated program costs and the number of covered individuals associated with all participating employers.

General Information about the VRS Disability Insurance Program Plan Description

All full-time and part-time permanent salaried state employees who are covered under the Virginia Retirement System (VRS), the State Police Officers' Retirement System (SPORS), or the Virginia Law Officers' Retirement System (VaLORS) hired on or after January 1, 1999, are automatically covered by the Disability Insurance Program (VSDP) upon employment. The Disability Insurance Program also covers state employees hired before January 1, 1999, who elected to transfer to VSDP rather than retain their eligibility to be considered for disability retirement. This plan is administered by the Virginia Retirement System (the System), along with pensions and other OPEB plans, for public employer groups in the Commonwealth of Virginia.

The specific information for the VRS administered OPEB programs, including eligibility, coverage and benefits is set out in the table below:

Eligible employees are enrolled automatically upon employment. They include: • Full-time and part-time permanent salaried state employees covered under VRS, SPORS, VaLORS and JRS. | The Group Life Insurance Program was established July 1, 1960, for state employees, teachers and employees of political subdivisions that elect the program, including the following employers that do not participate in VRS for retirement: City of Richmond City of Portsmouth City of Roanoke City of Norfolk Roanoke City School Board Basic group life insurance coverage is automatic upon employment. Coverage ends for employees who leave their position before retirement eligibility or who take a refund of their accumulated retirement member contributions and accrued interest. | The eligible employees of the LODA Program include paid employees and volunteers in hazardous duty positions in Virginia localities as well as hazardous duty employees who are covered under VRS, SPORS, or VaLORS. | The Virginia Sickness and Disability Program (VSDP), also known as the Disability Insurance Trust Fund was established January 1, 1999, to provide short-term and long-term disability benefits for non-work-related and work-related disabilities. Eligible employees are enrolled automatically upon employment. They include: • Full-time and part-time permanent salaried state employees covered under VRS, SPORS and VaLORS (members new to VaLORS following its creation on October 1, 1999, have been enrolled since the inception of VSDP). • State employees hired before January 1, 1999, who elected to transfer to VSDP rather than retain their eligibility to be considered for VRS disability retirement. • Public college and university faculty members who elect the VRS defined benefit plan. They may participate in VSDP or their institution's disability program, if offered. If the institution does not offer the program or the faculty member does not make an election, he or she is enrolled in VSDP. |

STATE EMPLOYEE HEALTH INSURANCE CREDIT PROGRAM (HIC) PLAN PROVISIONS

GROUP LIFE INSURANCE PROGRAM PLAN PROVISIONS

LINE OF DUTY ACT PROGRAM (LODA) PLAN PROVISIONS

VSDP PLAN PROVISIONS

Benefit Amounts

The State Employee Retiree Health Insurance Credit Program provides the following benefits for eligible employees:

- At Retirement For State employees, the monthly benefit is \$4.00 per year of service per month with no cap on the benefit amount.
- <u>Disability Retirement</u> For State employees, other than state police officers, who retire on disability or go on long-term disability under the Virginia Sickness and Disability Program (VSDP), the monthly benefit is \$120.00 or \$4.00 per year of service, whichever is higher.

For State police officer employees with a non-work-related disability who retire on disability or go on long-term disability under the Virginia Sickness and Disability Program (VSDP) the monthly benefit is \$120.00 or \$4.00 per year of service, whichever is higher.

For State police officers with a work-related disability, there is no benefit provided under the State Employee Retiree Health Insurance Credit Program if the premiums are being paid under the Virginia Line of Duty Act. However, they may receive the credit for premiums paid for other qualified health plans.

Benefit Amounts

The benefits payable under the Group Life Insurance Program have several components.

- Natural Death Benefit The natural death benefit is equal to the employee's covered compensation rounded to the next highest thousand and then doubled.
- Accidental Death Benefit

 The accidental death benefit
 is double the natural death
 benefit.
- Other Benefit Provisions In addition to the basic natural and accidental death benefits, the program provides additional benefits provided under specific circumstances. These include:
 - Accidental dismemberment benefit
 - Seatbelt benefit
 - Repatriation benefit
 - Felonious assault benefit
 - Accelerated death benefit option

Benefit Amounts

LODA provides death and health insurance benefits for eligible individuals:

- <u>Death</u>: The LODA program death benefit is a one-time payment made to the beneficiary or beneficiaries of a covered individual. Amounts vary as follows:
 - \$100,000 when a death occurs as the direct or proximate result of performing duty as of January 1, 2006, or after.
 - \$25,000 when the cause of death is attributed to one of the applicable presumptions and occurred earlier than five years after the retirement date
 - An additional \$20,000 benefit is payable when certain members of the National Guard and U.S. military reserves are killed in action in any armed conflict on or after October 7, 2001.
- Health Insurance: The LODA program provides health insurance benefits.

The health insurance benefits are managed through the Virginia Department of Human Resource Management (DHRM). The health benefits are modeled after the State Employee Health Benefits Program plans and provide consistent, premium-free continued health plan coverage for LODA-eligible disabled individuals, survivors and family members.

Benefit Amounts

The Virginia Sickness and Disability Program (VSDP) provides the following benefits for eligible employees:

- <u>Leave</u>: Sick, family and personal leave. Eligible leave benefits are paid by the employer.
- Short-Term Disability: The program provides a short-term disability benefit beginning after a seven-calendar-day waiting period from the first day of disability. The benefit provides income replacement beginning at 100% of the employee's pre-disability income, reducing to 80% and then 60% based on the period of the disability and the length of service of the employee. Short-term disability benefits are paid by the employer.
- <u>Long-Term Disability (LTD)</u>: The program provides a longterm disability benefit beginning after 125 workdays of short-term disability and continuing until the employee reaches his or her normal retirement age. The benefit provides income replacement of 60% of the employee's predisability income. If an employee becomes disabled within five years of his or her normal retirement age, the employee will receive up to five years of VSDP benefits. provided he or she remains medically eligible. Long-term disability benefits are paid for by the Virginia Disability Insurance Program (VSDP) OPEB Plan.

• Income Replacement

Adjustment: The program provides for an income replacement adjustment to 80% for catastrophic conditions.

VSDP Long-Term Care Plan:
 The program also includes a self-funded long-term care plan that assists with the cost of covered long-term care services.

Contributions

The contribution requirement for active employees in the VRS State Employee Health Insurance Credit Program is governed by §51.1-1400(D) of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Each state agency's contractually required employer contribution rate for the year ended June 30, 2022, was 1.12% of covered employee compensation for employees in the VRS State Employee Health Insurance Credit Program. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions from the VCCS to the VRS State Employee Health Insurance Credit Program were \$6.2 million and \$4.3 million for the years ended June 30, 2022 and June 30, 2021, respectively.

The contribution requirements for the Group Life Insurance Program are governed by $\S51.1-506$ and $\S51.1-508$ of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies and school divisions by the Virginia General Assembly. The total rate for the Group Life Insurance Program was 1.34% of covered employee compensation. This was

allocated into an employee and an employer component using a 60/40 split. The employee component was 0.80% (1.34% X 60%) and the employer component was 0.54% (1.34% X 40%). Employers may elect to pay all or part of the employee contribution, however the employer must pay all of the employer contribution. Each employer's contractually required employer contribution rate for the year ended June 30, 2022, was 0.54% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate, when combined with employee contributions, was expected to finance the costs of benefits payable during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the Group Life Insurance Program from the entity were \$2.1 million and \$2.1 million for the years ended June 30, 2022, and June 30, 2021, respectively.

The contribution requirements for the Line of Duty Act Program (LODA) are governed by §9.1-400.1 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Each employer's contractually required employer contribution rate for the LODA Program for the year ended June 30, 2022, was \$722.55 per covered full-time-equivalent employee. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019, and represents the pay-as-you-go funding rate and not the full actuarial cost of the benefits under the program. The actuarially determined pay-as-you-go rate was expected to finance the costs and related expenses of benefits payable during the year. Contributions to the LODA Program from the VCCS were \$70 thousand and \$74 thousand for the years ended June 30, 2022 and June 30, 2021, respectively.

The contribution requirements for the Disability Insurance Program (VSDP) are governed by §51.1-1140 of the *Code of Virginia*, as amended, but may be impacted as a result of funding provided to state agencies by the Virginia General Assembly. Each employer's contractually required employer contribution rate for the Disability Insurance Program (VSDP) for the year ended June 30, 2022, was 0.61% of covered employee compensation. This rate was based on an actuarially determined rate from an actuarial valuation as of June 30, 2019. The actuarially determined rate was expected to finance the costs of benefits payable during the year, with an adjustment to amortize the accrued OPEB assets. Contributions to the Disability Insurance Program (VSDP) from the VCCS were \$1.6 million and \$1.9 million for the years ended June 30, 2022 and June 30, 2021, respectively.

State Employee Health Insurance Credit Program OPEB Liabilities, State Employee Health Insurance Credit Program OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to State Employee Health Insurance Credit Program OPEB

At June 30, 2022, the VCCS reported a liability of \$44.8 million for its proportionate share of the VRS State Employee Health Insurance Credit Program Net OPEB Liability. The Net VRS State Employee Health Insurance Credit Program OPEB Liability was measured as of June 30, 2021 and the total VRS State Employee Health Insurance Credit Program OPEB Liability used to calculate the Net VRS State Employee Health Insurance Credit Program OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The VCCS' proportion of the Net VRS State Employee Health Insurance Credit Program OPEB Liability was based on the VCCS' actuarially determined employer contributions to the VRS State Employee Health Insurance Credit Program OPEB plan for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating state employers. At June 30, 2021, the VCCS' proportion of the VRS State Employee Health Insurance Credit Program was 5.34% as compared to 5.40% at June 30, 2020.

For the year ended June 30, 2022, the VCCS recognized VRS State Employee Health Insurance Credit Program OPEB expense of \$2.1 million. Since there was a change in proportionate share

between measurement dates, a portion of the VRS State Employee Health Insurance Credit Program Net OPEB expense was related to deferred amounts from changes in proportion.

Group Life Insurance Program OPEB Liabilities, Group Life Insurance Program OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to the Group Life Insurance Program OPEB

At June 30, 2022, the VCCS reported a liability of \$21.6 million for its proportionate share of the Net GLI OPEB Liability. The Net GLI OPEB Liability was measured as of June 30, 2021, and the total GLI OPEB liability used to calculate the Net GLI OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The VCCS' proportion of the Net GLI OPEB Liability was based on the VCCS' actuarially determined employer contributions to the Group Life Insurance Program for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the VCCS proportion was 1.89% as compared to 1.91% at June 30, 2020.

For the year ended June 30, 2022, the VCCS recognized GLI OPEB expense of (\$132) thousand. Since there was a change in proportionate share between measurement dates, a portion of the GLI OPEB expense was related to deferred amounts from changes in proportion.

Line of Duty Act Program OPEB Liabilities, Line of Duty Act Program OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Line of Duty Act Program OPEB

At June 30, 2022, the VCCS reported a liability of \$2.2 million for its proportionate share of the Net LODA OPEB Liability. The Net LODA OPEB Liability was measured as of June 30, 2021, and the total LODA OPEB Liability used to calculate the Net LODA OPEB Liability was determined by an actuarial valuation performed as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The VCCS' proportion of the Net LODA OPEB Liability was based on the VCCS' actuarially determined pay-as-you-go employer contributions to the LODA OPEB plan for the year ended June 30, 2021, relative to the total of the actuarially determined pay-as-you-go employer contributions for all participating employers. At June 30, 2021, the VCCS' proportion was 0.50% as compared 0.60% at June 30, 2020.

For the year ended June 30, 2022, the VCCS recognized LODA OPEB expense of \$200 thousand. Since there was a change in proportionate share between measurement dates, a portion of the LODA OPEB expense was related to deferred amounts from changes in proportion.

Virginia Disability Insurance Program OPEB Liabilities (Assets), Virginia Disability Insurance Program OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Virginia Disability Insurance Program OPEB

At June 30, 2022, the VCCS reported a liability (asset) of (\$24.6) million for its proportionate share of the Net VSDP OPEB Liability (Asset). The Net VSDP OPEB Liability (Asset) was measured as of June 30, 2021, and the total VSDP OPEB liability used to calculate the Net VSDP OPEB Liability (Asset) was determined by an actuarial valuation as of June 30, 2020, and rolled forward to the measurement date of June 30, 2021. The VCCS' proportion of the Net VSDP OPEB Liability (Asset) was based on the VCCS' actuarially determined employer contributions to the VSDP OPEB plan for the year ended June 30, 2021, relative to the total of the actuarially determined employer contributions for all participating employers. At June 30, 2021, the VCCS' proportion was 7.18% as compared to 7.25% at June 30, 2020.

For the year ended June 30, 2022, the VCCS recognized VSDP OPEB expense of \$58 thousand. Since there was a change in proportionate share between measurement dates, a

portion of the VSDP OPEB expense was related to deferred amounts from changes in proportion.

At June 30, 2022, the VCCS reported deferred outflows of resources and deferred inflows of resources related to the VRS OPEB plans from the following sources:

Net OPEB Liability (Asset)

The net OPEB liability (asset) represents the program's total OPEB liability determined in accordance with GASB Statement No. 74, less the associated fiduciary net position. As of the measurement date of June 30, 2021, Net OPEB liability (asset) amounts for VRS administered programs are as follows (amounts expressed in thousands):

| | HIC | GLI | LODA | VSDP |
|--|-----------------|-----------------|---------------|-----------------|
| Total OPEB Liability | \$ 1,052,400 | \$ 3,577,346 | \$ 448,542 | \$ 267,198 |
| Plan Fiduciary Net Position | 207,860 | 2,413,074 | 7,553 | 611,919 |
| Net OPEB Liability (Asset) | \$ 844,540 | \$ 1,164,272 | \$ 440,989 | \$ (344,721) |
| Plan Fiduciary Net Position as a Percentage of the Total OPEB Liability | 10.750/ | 67.450/ | 4 600/ | 220.049/ |
| Percentage of the Total OPED Liability | 19.75% | 67.45% | 1.68% | 229.01% |

The total OPEB liability is calculated by the System's actuary, and each plan's fiduciary net position is reported in the System's financial statements. The net OPEB asset is disclosed in accordance with the requirements of GASB Statement No. 74 in the System's notes to the financial statements and required supplementary information.

Long-Term Expected Rate of Return for the HIC, GLI, & VSDP OPEB programs

The long-term expected rate of return on the VRS System investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of VRS System investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target asset allocation and best estimate of arithmetic real rates of return for each major asset class are summarized in the following table:

| | | Arithmetic Long-Term Expected | Weighted Average Long-Term Expected |
|--------------------------------------|----------------------|----------------------------------|--|
| Asset Class (Strategy) | Target Allocation | Rate of Return | Rate of Return |
| Public Equity | 34.00% | 5.00% | 1.70% |
| Fixed Income | 15.00% | 0.57% | 0.09% |
| Credit Strategies | 14.00% | 4.49% | 0.63% |
| Real Assets | 14.00% | 4.76% | 0.67% |
| Private Equity | 14.00% | 9.94% | 1.39% |
| MAPS - Multi-Asset Public Strategies | 6.00% | 3.29% | 0.20% |
| PIP - Private Investment Partnership | 3.00% | 6.84% | 0.21% |
| Total | 100.00% | • | 4.89% |
| | Inflation | | 2.50% |
| * Expected arith | metic nominal return | | 7.39% |

^{*} The above allocation provides a one-year return of 7.39%. However, one-year returns do not take into account the volatility present in each of the asset classes. In setting the long-term expected return for the *System*, stochastic projections are employed to model future returns under various economic conditions. These results provide a range of returns over various time periods that ultimately provide a median return of 6.94%, including expected inflation of 2.50%.

On October 10, 2019, the VRS Board elected a long-term rate of return of 6.75%, which was roughly at the 40th percentile of expected long-term results of the VRS fund asset allocation at that time, providing a median return of 7.11%, including expected inflation of 2.50%.

Long-Term Expected Rate of Return for the LODA OPEB Program

The long-term expected rate of return on LODA OPEB Program's investments was set at 2.16% for this valuation. Since LODA is funded on a current-disbursement basis, it is not able to use the VRS Pooled Investments' 6.75% assumption. Instead, the assumed annual rate of return of 2.16% was used since it approximates the risk-free rate of return. This Single Equivalent Interest Rate (SEIR) is the applicable municipal bond index rate based on the Bond Buyer General Obligation 20-year Municipal Bond Index as of the measurement date of June 30, 2021.

Discount Rate

The discount rate used to measure the total State Employee HIC OPEB was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made in accordance with the VRS funding policy at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the

fiscal year ending June 30, 2021, the rate contributed by the entity for the VRS State Employee Health Insurance Credit Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, all agencies are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the State Employee HIC OPEB plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total State Employee HIC OPEB liability.

The discount rate used to measure the total GLI OPEB Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS guidance and the employer contributions will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2021, the rate contributed by the entity for the GLI OPEB will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2021 on, employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the GLI OPEB's fiduciary net position was projected to be available to make all projected future benefit payments of eligible employees. Therefore the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total GLI OPEB Liability.

The discount rate used to measure the total LODA OPEB liability was 2.16%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS Statutes and that they will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2021, the rate contributed by participating employers to the LODA OPEB Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly.

The discount rate used to measure the total VSDP OPEB liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employer contributions will be made per the VRS Statutes and that they will be made in accordance with the VRS funding policy and at rates equal to the actuarially determined contribution rates adopted by the VRS Board of Trustees. Through the fiscal year ending June 30, 2021, the rate contributed by participating employers to the VSDP OPEB Program will be subject to the portion of the VRS Board-certified rates that are funded by the Virginia General Assembly which was 100% of the actuarially determined contribution rate. From July 1, 2021, on, participating employers are assumed to continue to contribute 100% of the actuarially determined contribution rates. Based on those assumptions, the VSDP OPEB Program's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return was applied to all periods of projected benefit payments to determine the total VSDP OPEB liability.

Payables to the State Employee Health Insurance Credit Program OPEB Plan

The VCCS recognized \$55.3 million as Accrued Payroll Expenses as of June 30, 2022, which represents hours worked before June 30 but paid after July 1. The portion payable for contributions to the Health Insurance Credit Program is estimated at \$174 thousand.

Payables to the VRS Group Life Insurance OPEB Plan

The VCCS recognized \$55.3 million as Accrued Payroll Expenses as of June 30, 2022, which represents hours worked before June 30 but paid after July 1. The portion payable for contributions to the Group Life Insurance Plan is estimated at \$208 thousand.

Payables to the Disability Insurance Program (VSDP) OPEB Plan

The VCCS recognized \$55.3 million as Accrued Payroll Expenses as of June 30, 2022, which represents hours worked before June 30 but paid after July 1. The portion payable for contributions to the Disability Insurance Plan is estimated at \$84 thousand.

Plans administered by the DHRM

Pre-Medicare Retiree Healthcare

The Commonwealth provides a healthcare plan established by Title 2.2, Chapter 28 of the *Code of Virginia* for retirees who are not yet eligible to participate in Medicare.

Following are eligibility requirements for Virginia Retirement System retirees:

- You are a retiring state employee who is eligible for a monthly retirement benefit from the Virginia Retirement System (VRS), and
- You start receiving (do not defer) your retirement benefit immediately upon retirement*,
 and
- Your last employer before retirement was the Commonwealth of Virginia, and
- You were eligible for (even if you were not enrolled) coverage as an active employee in the State Health Benefits Program until your retirement date (not including Extended Coverage/COBRA), and
- You enroll no later than 31 days from your retirement date.

*For VRS retirees, this means that your employing agency reported a retirement contribution or leave without pay status for retirement in the month immediately prior to your retirement date. Some faculty members may also be eligible if they are paid on an alternate pay cycle but maintain eligibility for active coverage until their retirement date.

Effective January 1, 2017**, following are eligibility requirements for Optional Retirement Plan retirees:

- You are a terminating state employee who participates in one of the qualified Optional Retirement Plans, and
- Your last employer before termination was the Commonwealth of Virginia, and
- You were eligible for (even if you were not enrolled) coverage in the State Employee Health Benefits Program for active employees at the time of your termination, and
- You meet the age and service requirements for an immediate retirement benefit under the non-ORP Virginia Retirement System plan that you would have been eligible for on your date of hire had you not elected the ORP, and
- You enroll in the State Retiree Health Benefits Program no later than 31 days from the date you lose coverage (or lose eligibility for coverage) in the State Health Benefits Program for active employees due to your termination of employment.

**This change applies to ORP terminations effective January 1, 2017, or later. Eligibility for those who terminated employment prior to January 1 should be determined based on the policy in place at the time of their termination.

The employer does not pay a portion of the retirees' healthcare premium; however, since both active employees and retirees are included in the same pool for purposes of determining health insurance rates, this generally results in a higher rate for active employees. Therefore, the employer effectively subsidizes the costs of the participating retirees' healthcare through payment of the employer's portion of the premiums for active employees.

This fund is reported as part of the Commonwealth's Healthcare Internal Service Fund. Benefit payments are recognized when due and payable in accordance with the benefit terms. Pre-Medicare Retiree Healthcare is a single-employer defined benefit OPEB plan that is treated like a cost-sharing plan for financial reporting purposes, and is administered by the Department of Human Resource Management. There were approximately 4,100 retirees and 88,000 active employees in the program as of June 30, 2021. There are no inactive employees entitled to future benefits who are not currently receiving benefits. There are no assets accumulated in a trust to pay benefits.

<u>Pre-Medicare Retiree Healthcare OPEB Liabilities, OPEB Expense, and Deferred Outflow of Resources</u> and Deferred Inflows of Resources

At June 30, 2022, the VCCS reported a liability of \$29.4 million for its proportionate share of the collective total Pre-Medicare Retiree Healthcare OPEB liability of \$448.9 million. The Pre-Medicare Retiree Healthcare OPEB liability was measured as of June 30, 2021 and was determined by an actuarial valuation as of June 30, 2021. The VCCS' proportion of the Pre-Medicare Retiree Healthcare OPEB liability was based on each employer's calculated healthcare premium contributions, to include the December premium holiday amounts, as a percentage of the total employer's calculated healthcare premium contributions for all participating employers. At June 30, 2021, the VCCS' proportion was 6.56% as compared to 6.77% at June 30, 2020. For the year ended June 30, 2022, the VCCS recognized Pre-Medicare Retiree Healthcare OPEB expense of \$13.4 million.

At June 30, 2022, the VCCS reported deferred outflows or resources and deferred inflows of resources related to Pre-Medicare Retiree Healthcare from the following sources:

| Pre-Medicare Retiree Healthcare (\$ Thousands) | Outflows of sources | Deferred Inflows of Resources | | |
|---|-------------------------|----------------------------------|--|--|
| Differences between expected and actual experience | \$ - \$ | 14,972 | | |
| Change in assumptions | - | 28,322 | | |
| Changes in proportionate share | 2,599 | 7,715 | | |
| Amounts associated with transactions subsequent to the measurement date | 2,153 | - | | |
| Total | \$ 4,752 \$ | 51,009 | | |

\$2.1 million reported as deferred outflows of resources related to the Pre-Medicare Retiree Healthcare OPEB resulting from amounts associated with transactions subsequent to the measurement date will be recognized as a reduction of the total OPEB Liability in the fiscal year ending June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to the Pre-Medicare Retiree Healthcare OPEB will be recognized in the Pre-Medicare Retiree Healthcare OPEB expense as follows:

Actuarial Assumptions and Methods

The total Pre-Medicare Retiree Healthcare OPEB liability was based on an actuarial valuation with a valuation date of June 30, 2021. The Department of Human Resource Management selected the economic, demographic and healthcare claim cost assumptions. The actuary provided guidance with respect to these assumptions. Initial healthcare costs trend rates used were 6.75 percent for medical and pharmacy and 4.00 percent for dental. The ultimate trend rates used were 4.50 percent for medical and pharmacy and 4.0 percent for dental.

Beneficiaries and Survivors: Pub-2010 Benefits Weighted General Contingent Annuitant

Rates projected generationally with a Modified MP-2021 Improvement Scale; 110% of rates for males and females

The discount rate was based on the Bond Buyers GO 20 Municipal Bond Index as of the measurement date which is June 30, 2021.

Changes of Assumptions

The following actuarial assumptions were updated since the June 30, 2020 valuation based on recent experience:

• Retiree participation – reduced the rate from 45% to 40%

Spousal coverage and retiree participation were based on a blend of recent experience and the prior year assumptions. The mortality table has been updated from adjusted RP-2014 mortality tables using Scale BB to adjusted Pub-2010 Headcount-Weighted mortality tables projected generationally with modified MP-2021 Improvement Scales.

No excise tax has been reflected due to the SECURE Act. Among the provisions was a repeal of three taxes and fees that were originally intended to help fund the Affordable Care Act (ACA): i) the excise tax on high-cost health plans (Cadillac tax); ii) the annual fee on health insurance providers; and iii)the medical device excise tax.

The trend rates were updated based on economic conditions as of June 30, 2021. Additionally, the discount rate was decreased from 2.21% to 2.16% based on the Bond Buyers GO 20 Municipal Bond Index.

Sensitivity of the VCCS' Proportionate Share of the OPEB Liability to Changes in the Discount Rate

The following presents the VCCS' proportionate share of the Pre-Medicare Retiree Healthcare OPEB liability using the discount rate of 2.16%, as well as what the VCCS' proportionate share of the Pre-Medicare Retiree Healthcare OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (1.16%) or one percentage point higher (3.16%) than the current rate:

19. RISK MANAGEMENT

The System is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; non-performance of duty; injuries to employees; and natural disasters. The System participates in insurance plans maintained by the Commonwealth of Virginia. The state employee health care and worker's compensation plan are administered by the Department of Human Resource Management, and the risk management insurance plans are administered by the Department of Treasury, Division of Risk Management. Risk management insurance includes property, general liability, medical malpractice, faithful performance of duty bonds, automobile, and air and watercraft plans. The System pays premiums to each of these Departments for its insurance coverage. Information relating to the Commonwealth's insurance plans is available at the statewide level in the Commonwealth of Virginia's Comprehensive Annual Financial Report.

A Faithful Performance Duty Bond administered by the Commonwealth of Virginia's Department of Treasury, Division of Risk Management, covers the employees of the VCCS. The Faithful Performance Duty Bond provides coverage with liability limits of \$500,000 for each occurrence.

20. CAPITAL APPROPRIATIONS-STATE

Capital appropriations-state is comprised of the following:

| Virginia College Building Authority appropriation revenue | \$25,471,375 |
|---|---------------------|
| General Fund appropriation revenue | 13,305,162 |
| Capital contributions from Treasury | 4,773 |
| Total | <u>\$38,781,310</u> |

21. COMPONENT UNIT FINANCIAL INFORMATION

Below is a summary of the foundations.

VCCS has five major component units-Mountain Empire Community College Foundation, Southwest Virginia Community College Educational Foundation, Northern Virginia Community College Educational Foundation, Virginia Western Community College Educational Foundation, and Piedmont Community College Educational Foundation. Additionally, the System has twentythree non-major component units—Blue Ridge Community College Educational Foundation, Central Virginia Community College Educational Foundation, Dabney S. Lancaster Community College Educational Foundation, Dabney S. Lancaster Community College Real Estate Foundation, Danville Community College Educational Foundation, Eastern Shore Community College Foundation, Germanna Community College Educational Foundation, J. Sargeant Reynolds Community College Educational and Real Estate Foundation, John Tyler Community College Foundation, John Tyler Community College Real Estate Foundation, Laurel Ridge Community College Educational Foundation, New River Community College Educational Foundation, Patrick Henry Community College Foundation, Paul D. Camp Community College Foundation, Rappahannock Community College Educational Foundation, Southside Virginia Community College Foundation, Thomas Nelson Community College Educational Foundation, Tidewater Community College Educational Foundation, Tidewater Community College Real Estate Foundation, Virginia Highlands Community College Educational Foundation, Wytheville Community College Educational Foundation, Wytheville Community College Scholarship Foundation, and the Virginia Foundation for Community College Education. These organizations are separately incorporated entities and other auditors examine the related financial statements.

For fiscal year 2022, Piedmont Community College Educational Foundation became a major component unit and J. Sargeant Reynolds Community College Educational and Real Estate Foundation became a non-major component unit as a result of the change in net position from fiscal year 2021 to fiscal year 2022.

22. LITIGATION

A few community colleges have been named as defendants in lawsuits. The final outcome of these lawsuits cannot be determined at this time. However, management is of the opinion that any ultimate liability to which the colleges may be exposed will not have a material effect upon the Virginia Community College System's financial position

23. 2021 AMERICAN RESCUE PLAN ACT OF 2021 (ARPA) CORONAVIRUS RELIEF AND RESPONSE SUPPLEMENTAL ACT (CRRSA) OF 2020, and CORONAVIRUS AID, RELIEF, AND ECONOMIC SECURITY ACT OF 2020

During the fiscal year, Chapter 1, 2021 Acts of Assembly, Special Session II designated funding to the VCCS from the American Rescue Plan Act of 2021 (ARPA), State and Local Recovery Fund (SLRF) in the amount of \$40.0 million for two capital projects at Northern Virginia Community College (NVCC) including \$15.0 million designated for construction of a new building that would allow NVCC to expand its trades programs in carpentry, electrical, computer integration in trades, advanced automotive, and backup power systems and \$25.0 million designated for construction of a building that would allow NVCC to expand its nursing, phlebotomy, occupational therapy assistant, and physical therapist assistant programs. In addition, the VCCS was allotted a sub-award of \$20.0 million from funding awarded to the State Council of Higher Education for Virginia. Construction obligations and financial-aid disbursements will not begin until fiscal year 2023.

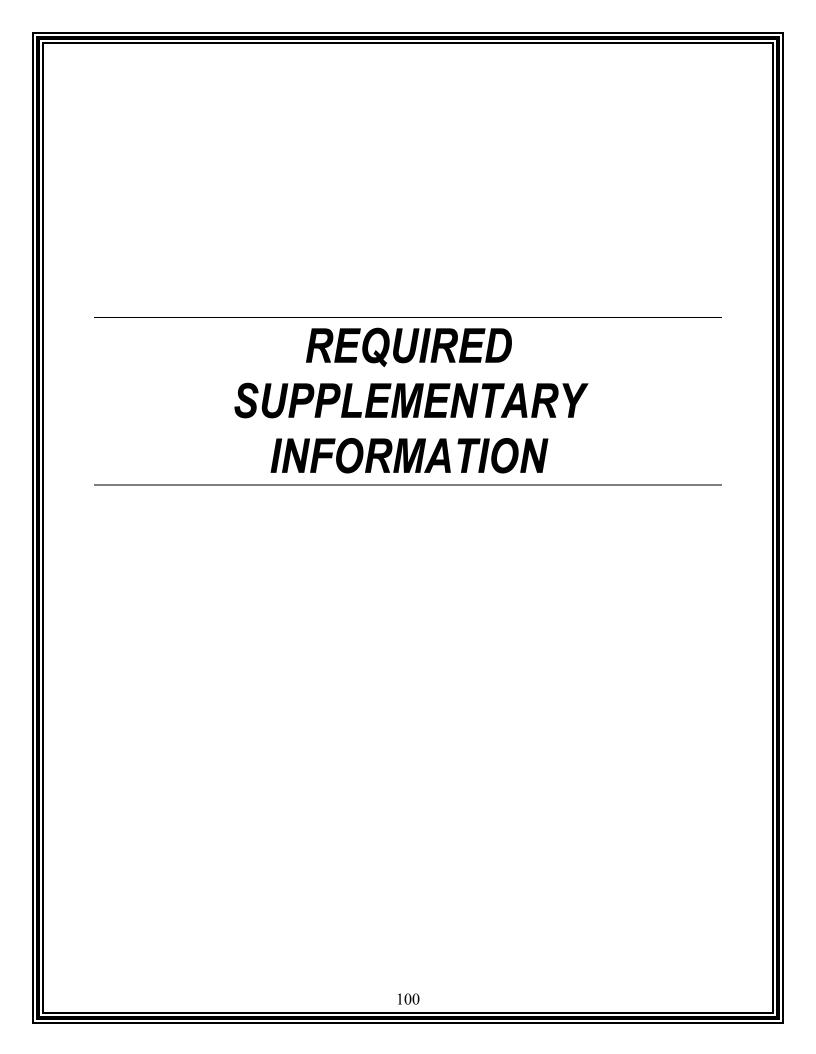

During the fiscal year, VDOE also awarded an additional \$6,7 million in Governor's Education Emergency Relief (GEER) financial-aid funding, referred to as GEERII, from the Coronavirus Relief and Response Supplemental Act (CRRSAA) of 2020. Financial-aid disbursements from GEERII funding will not occur until fiscal year 2023.

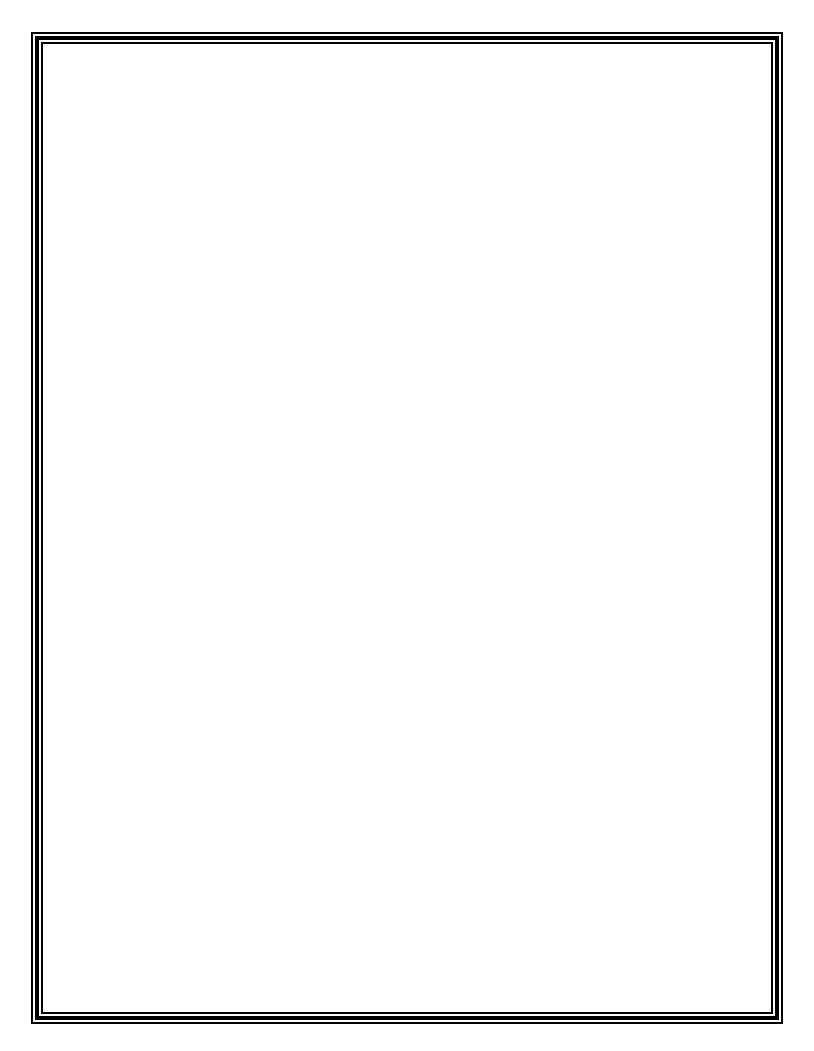

In prior years, VCCS community colleges were awarded \$164.1 million from the Coronavirus Relief and Response Supplemental Act (CRRSAA) of 2020 as supplemental Higher Education Emergency Relief Funds and is referred to as HEERFII funding. Community colleges also received \$281.1 million in additional Higher Education Emergency Relief Funds (HEEFIII) from the 2021 American Rescue Plan Act (ARPA). The authorized uses for both CRRSAA and ARPA funds included direct emergency grants to students for pandemic related cost impacts, and institutional costs associated with responding to the pandemic, including revenue loss.

In prior years, VCCS colleges received additional \$38.1 million Coronavirus Aid, Relief, and Economic Security Act (CARES) Coronavirus Relief Funds (CRF) from state CARES Act allocations from the Governor for targeted pandemic related spending this fiscal year. During this fiscal year, the VCCS reverted \$19.7 million in CRF not spent by the December 31, 2021, deadline.

24. SUBSEQUENT EVENTS

In May 2021, the Virginia Community College's State Board (the Board) adopted a new policy requiring college names to "Reflect the values of inclusive and accessible education articulated in the VCCS mission statement, with special emphasis on diversity, equity, and opportunity, and be relevant to the students it seeks to serve and to the geography of its service region." The Board, by policy, carries the sole authority to decide the names of Virginia's Community Colleges. For fiscal year 2022, Lord Fairfax Community College became Mountain Laurel Community College. Five other college name changes will occur in fiscal year 2023.

Notes to Required Supplementary Information For the Year Ended June 30, 2022

Changes of benefit terms – There have been no actuarially material changes to the System benefit provisions since the prior actuarial valuation.

Changes of assumptions – The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period from July 1, 2016 through June 30, 2020, except the change in the discount rate, which was based on VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions are as follows:

| Mortality Rates (Pre-retirement, post- retirement healthy, and disabled) | Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020 |
|---|--|
| Retirement Rates | Adjusted rates to better fit experience for Plan 1; set separate rates based on experience for Plan 2/Hybrid; changed final retirement age from 75 to 80 for all |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |
| Disability Rates | No change |
| Salary Scale | No change |
| Line of Duty Disability | No change |
| Discount Rate | No change |

The following changes in actuarial assumptions were made for the VaLORS Retirement Plan effective June 30, 2016, except the change in discount rate, which was based on the VRS Board action effective as of July 1, 2019. Changes to the actuarial assumptions as a result of the experience study and VRS Board action are as follows:

| Mortality Rates (Pre-retirement, post- retirement healthy, and disabled) | Update to PUB2010 public sector mortality tables. For future mortality improvements, replace load with a modified Mortality Improvement Scale MP-2020 |
|---|---|
| Retirement Rates | Increased rates at some younger ages, decreased at age 62, and changed final retirement age from 65 to 70 |
| Withdrawal Rates | Adjusted rates to better fit experience at each year age and service through 9 years of service |

Notes to Required Supplementary Information For the Fiscal Year Ended June 30, 2022

There are no assets accumulated in a trust to pay related benefits.

Changes of benefit terms – There have been no changes to the benefit provisions since the prior actuarial valuation.

Changes of assumptions – The following actuarial assumptions were updated since the June 30, 2020 valuation based on recent experience:

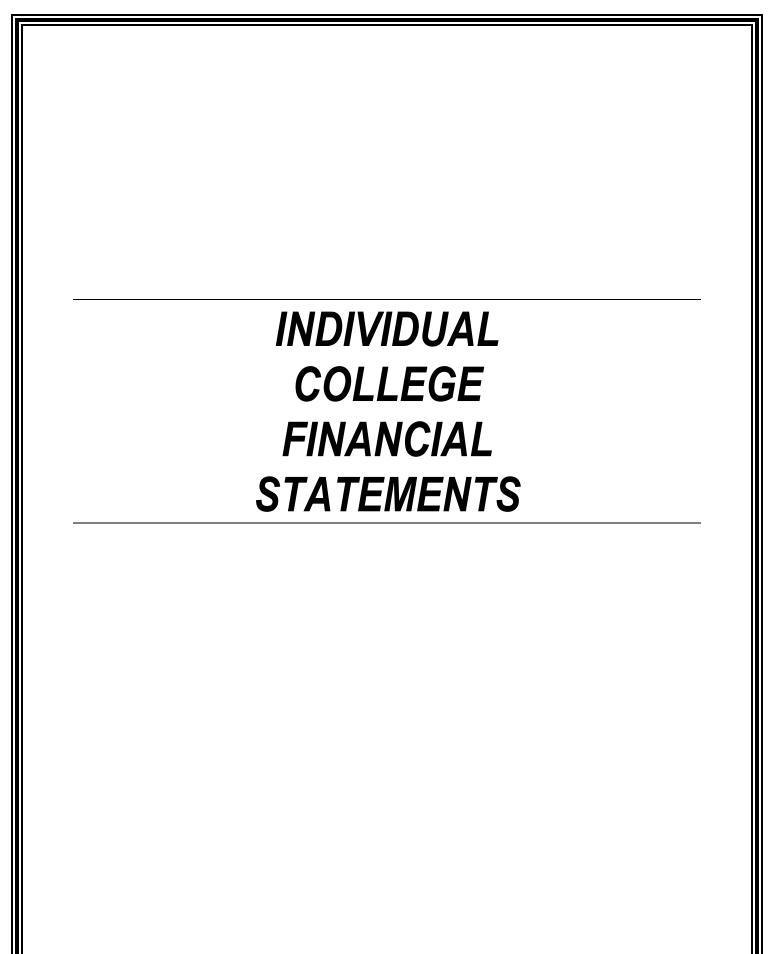

• Retiree Participation - reduced the rate from 45% to 40%

Spousal coverage and retiree participation were both reduced based on a blend of recent experience and the prior year assumptions. The mortality table has been updated from adjusted RP-2014 mortality tables using Scale BB to adjusted Pub-2010 Headcount-Weighted mortality tables projected generationally with modified MP-2021 Improvement Scales.

No excise tax has been reflected due to the SECURE Act. Among the provisions was a repeal of three taxes and fees that were originally intended to help fund the Affordable Care Act (ACA): i) the excise tax on high-cost health plans (Cadillac tax); ii) the annual fee on health insurance providers; and iii) the medical device excise tax.

The trend rates were updated based on economic conditions as of June 30, 2021. Additionally, the discount rate was decreased from 2.21% to 2.16% based on the Bond Buyers GO 20 Municipal Bond Index as of June 30, 2022.

^{*}The amounts presented have a measurement date of the previous fiscal year end.
